combined monthly searches, 2 keywords

Freshers preparing for tech jobs

Top: **interview questions python programming**

HOW THE KEYWORDS WERE CHOSEN

- Searched live keyword data for internship, coding and training topics (monthly search volume and CPC from Google Ads data via seodata.dev).
- Kept keywords with strong volume that match what CodeAlpha offers: internships, beginner coding, courses and interview prep.
- Grouped them into 4 topic clusters so each blog post targets one main keyword plus related ones.
- Note: figures are US monthly searches. CodeAlpha's audience is largely in India, so confirm the final list in Google Keyword Planner and Google Trends.

Keyword List: Internships + Learn to Code

Sorted by monthly search volume

INTERNSHIPS		MONTHLY SEARCHES (US)	CPC	BEST CONTENT USE

LOCAL-INTENT IDEAS TO TEST

Volume not verified; check in Keyword Planner

- online internship with certificate
- remote internship for college students
- python internship for beginners
- web development internship for freshers
- free internship for students in India

ON-PAGE SEO TIPS

- 1 One main keyword per post, plus 2-3 related ones.
- 2 Put the keyword in the title, first paragraph and one subheading.
- 3 Write meta descriptions under 160 characters.
- 4 Link each post to related CodeAlpha posts and the internship page.
- 5 Refresh top posts every year and track rankings monthly.
